ENVIRONMENTAL POLICY

We are committed to sustainable development throughout our Company's operations in the design and manufacture of electrical engineering products with light, medium and heavy manufacturing capabilities. Continual improvement in environmental performance will be achieved by setting objectives, measuring progress, and communicating results.

To deliver sustainable development, we will:

- communicate Ramsay Engineering's Environmental Policy and procedures to all employees.
- comply with all applicable environmental laws, regulations, statutory obligations, and relevant voluntary codes of practice.
- make business decisions that work towards achieving sustainable development and a reduction in pollution.
- ensure that our employees, subcontractors, suppliers, and consultants are aware of and have the necessary skills to fulfil their environmental obligations with respect to Ramsay Engineering operations.
- strive to conserve resources, reduce waste, and eliminate or minimise adverse environmental effects and risks that may be associated with our services and operations.
- work with our clients and other stakeholders to help them achieve their environmental objectives and obligations.
- periodically review and revise our Environmental Policy and procedures to maintain their relevance.

We will respond to the environmental challenges in all areas of our business, and it is the responsibility of every employee to implement this policy.

The Ramsay Engineering Business Management System is designed to satisfy the requirements of **ISO 14001:2015** and has the full support of management and all personnel of Ramsay Engineering and its successful implementation and maintenance is a commitment by them. Proper adherence to all quality related activities and active participation in all quality related activities are a requirement of all personnel in the company.
